Can backyard living really restore the soul?
At Berlin Gardens, we wholeheartedly
believe it can.

Making outdoor spaces comfortable and inviting is more than a design trend to our team. We believe the outdoors is one of the best places to relax with friends and family, rejuvenate oneself and connect with God.

TAKING LIFE OUTDOORS

Our pergolas can be an extension of your home or a freestanding structure providing shade and visual interest to your yard. Pergolas make any space feel comfortable and sheltered while still maintaining all the benefits of being outdoors.

THE BERLIN GARDENS DIFFERENCE

American-made and solidly constructed, our pergolas are made by a team of Amish craftsmen. By combining old world skills with modern technology, we produce backyard structures that are strong and yet gracefully beautiful.

HOW WE DO BUSINESS

Our first priority is to bring glory to God in all we do. It's how we approach every day, every job and every customer. We've established what we call our core values: honesty, efficiency, attitude, respect and trust. These aren't just words; they're our foundation as a company.

We hope our products inspire you to *take life outdoors*.

*Pergolas make your backyard space
functional and beautiful.*

Underneath the pergola, there is a wicker chair with yellow cushions and patterned pillows. The background shows a lush green forest and distant mountains under a blue sky with light clouds.

The beauty and benefits of a Pergola

Is a pergola the right choice for you?

When you want to immerse yourself in the outdoors, but prefer some shade from the sun, a pergola is the perfect fit.

Airy and open, pergolas are a favorite choice of homeowners. Pergolas fit in nearly every yard. They can be an attached structure or freestanding. They fit in any nook and corner, where you can sit down, relax and enjoy your backyard.

Pergolas block between 50 and 80 percent of sunlight, depending on shade style and location of the sun. It's often the best compromise between a hot, open patio or deck and a covered option that completely blocks the sun.

Craftsmanship

Our factory is located in Berlin, Ohio, in the heart of Amish country. While we use advanced machinery, we pair that with traditional methods and skills handed down through generations. We use computerized machines to cut our vinyl components with extreme accuracy. For wood pergolas, expert craftsmen hand select wood pieces and then cut, rout and hand sand them. With all our pergolas, skilled workers manufacture each piece, following a finely tuned and efficient assembly process. Visual inspection occurs at each step in the process. The result is a pergola that you will be proud to own.
